In the framework of ASEM - **ASEM Water** Resources Research and Development Center (ASEMWater) - conference series, under the **patronage of HE János Áder, president** of Hungary the Eurasian Water Conference – 3rd ASEM Seminar on Water Management will be held in Budapest, Hungary.

The remarkable event will be organized by the **Hungarian Water Cluster (HWC)** and **ASEMWater**, with the support of Asia-Europe Foundation (ASEF), the Ministry of Foreign Affairs and Trade of Hungary, the Ministry of Foreign Affairs of China, the Ministry of Science and Technology of China, as well as the People's Government of Hunan Province of China. The international conference **focuses on sustainable urban solutions for global challenges**.

The **aim of the event** is to establish an **international multi-stakeholder** forum and network on sustainable water management from a **European and Asian perspective**, providing opportunities to discuss the challenges and best practices, exchange experiences, and seek solutions. The event fosters dialogues between the governments, private sector, academia, and the civil society from Europe and Asia in the field of integrated and **sustainable** water management, reflecting upon the sustainable development goals(SDGs) which constitute the core of the 2030 agenda for sustainable development.

The conference and side events (B2B meetings, study tours) will **provide a timely opportunity** for public and private sector decision-makers, water utility professionals, experts and other stakeholders from the developed and the developing world to exchange views and share experiences with leading international experts on the most pressing challenges and potential solutions in the field urban water management. By participating on the event **Eurasian partnerships on water can be broadened, new professional co-operation** will be available and active international business opportunities can be built up, **do not miss the opportunity and be part** of this unique water event!
