

GUIDE FOR AUTHORS

Electronic papers

Any paper sent for publication in E-Water - the official journal of the European Water Association – should be original and unpublished in any international publication. It should not be considered for publication elsewhere. Outstanding articles published in journals of the EWA national member associations may be considered for publication in E-Water provided that they are written in English, French or German and an extended abstract in English is included.

All papers should be delivered to the Chairperson of the EWA Editorial Committee¹ by e-mail, or by CD-ROM or diskette. The name and type of file(s) should be clearly indicated.

Size

Articles should contain between 2000 and 6000 words. The total size of the file including illustrations should not exceed 3 MB. Illustrations have to be put in the text and provided as separate files additionally. Accepted formats for illustrations are JPEG, GIF, TIF, BMP; no pdf or eps documents. Diagrams based on Excel documents should be sent with the original document.

Writing a paper

A paper should begin with the author's name(s), with their addresses in a footnote, the title (as short as possible), and an abstract of approximately 50 to 200 words. When English is not the author's native language, an abstract in their own language should be included together with the abstract in English.

The paper should be divided in sections, each having a short heading.

The paper should be written in English. However, occasionally, papers in French, German and Spanish may be accepted, provided that the paper includes an extended abstract in English.

References

References should be numbered and inserted at the end of the paper. Each reference should include the authors and the title of the book or article referred to:

If from a journal: Journal name; volume, (for special issues add editor(s) and issue title);

If from a book: Editor, Book title (volume and edition, if applicable), Publisher, place of publication;

If from proceedings: Editor(s), Title of conference, Place and year of conference (publisher and place of publication, if applicable) Page numbers and Date of publication.

¹ The current Chairperson of the Editorial Committee of the EWA is:

Maria Helena F. MARECOS do MONTE
Prof. Dr. MSc.Eng.
DEC - Departamento de Engenharia Civil
ISEL - Instituto Superior de Engenharia de Lisboa
Rua Conselheiro Emídio Navarro, 1
1950-062 Lisboa
PORTUGAL

GUIDE FOR AUTHORS

If from a text from the INTERNET: Author(s), (year of publication), Title of text, Viewed on date, in location, Address of internet site.

In the text, references are made by mentioning its number in the list of references between brackets, for instance [1].

Refereeing process

The proposed paper will be sent to two referees, who will judge, whether the paper is suitable for publication. A maximum period of two months is expected for the refereeing process, although it strongly depends on referees' availability.

Authors have the right to mention the name of one referee whom they would like to review their paper, provided he (she) is well-known in the field.

After approval, a copy of the proofs will be sent by the EWA general headquarters to the main author for correction. These should be returned within two weeks.

Copyright

Once an article has been accepted all rights are reserved to the EWA. Storage of the articles in retrieval systems is allowed for private purposes only. The translation into other languages, reprinting, and reproduction by online services, on other web-sites and on CD-ROM etc. is only allowed after written permission of the European Water Association.
