

Water-related questions in the European Parliament

One key element of the European Parliament within its right to political control is the right to table written and oral questions to European Institutions, largely to the Commission, to a smaller extent to the Council.

Members of Parliament show a regular interest of water issues in their Parliamentary questions.

Between 12 February and 3 April 2019 a total of 24 water-related questions have been tabled within 6 weeks.

EWA Newsletter provides you in each edition with the summary text of the questions and their authors and date. Via a link you may study the full text of questions and related answers.
