European Parliament, water-related Parliamentary questions

Members of the European Parliament show a regular interest of water issues in their Parliamentary questions.

In the period between 28 November and 27 January 2025, 23 water-related questions were tabled, from the water scarcity to drinking water availability, to fishing, and the Water Framework Directive.

EWA News presents you the outline texts of the questions and the coordinates of the MEP who has submitted them, plus links to the full text and (once available) the answers.
