

European Water Association World Skills Online Series

EWA launches series of online activities in support of WorldSkills #55: 'Water Technology'

The European Water Association (EWA) supports WorldSkills to inspire and support 100 million young people to get ahead with skills by 2030. Competitions is a known way to motivate young water professionals, to train their capacity to work goal oriented and their ability to perform under pressure. For enterprises, competitions are a good way to spot talents and recruit future employees.

To help share the knowledge of WorldSkills and help interested European countries and other interested partners prepare for the upcoming WorldSkills events, EWA now launches a series on online activities for support.

→ 46th WorldSkills Competition, 22-27 September 2021 in Shanghai, China

The Registration is open. There is still room for minimum 9 European countries to join the skill no. 55: Water Technology.

→ 47th WorldSkills Competition, 12-17 September 2023 in Lyon, France

In September 2023 Worldskills will be hosted in Lyon, France, and we expect many European young teams to participate.
