

1. European Parliament questions

2. European Parliament opposing extension of approval periods of pesticides active substances

The European Parliament is directly elected by citizens of all Member States. One key element within its right to political control is the right to table written and oral questions to European Institutions, largely to the Commission, to a smaller extent to the Council.

Due to a range of restrictions because of the COVID-19 pandemic, European Parliament activities were restricted as well. A total of 17 water-related questions have been tabled this time.

EWA News provides you in each edition with the summary text of the questions and their authors and date, plus a link to the full texts.

In addition, this edition covers a European Parliament resolution opposing a Commission Delegated Act (Implementing Regulation) on extending the EU-wide approval of certain pesticides (active substances).
