

### Urban Waste Water Treatment Directive Evaluation and forthcoming revision

Photo: International Association of Water Service Companies in the Danube River Catchment Area (IAWD), Vienna (Austria)

The Urban Waste Water Treatment Directive dates from 1991, based on a legislative proposal from 1989, and is thus almost 30 years old. It was therefore time to evaluate whether the Directive is still fit for purpose.

EWA News presents you the key findings of the evaluation, the foreseen next steps towards a revision, and access to relevant documents (consolidated text of the Directive, 2019 Evaluation in full text and executive summary, 2017 and 2018 background studies, synopsis of stakeholder consultation and 2020 roadmap for revision).
