

### European Parliament Questions

**20 water-related questions from questions, from large-scale pig farms to pollution by waste water from fish processing industry**

The European Parliament is directly elected by citizens of all Member States. One key element within its right to political control is the right to table written and oral questions to European Institutions, largely to the Commission, to a smaller extent to the Council. Members of Parliament show a regular interest of water issues in their Parliamentary questions.

Between 24 July 2020 and 12 October 2020, a total of 20 water-related questions have been tabled.

EWA News provides you in each edition with the summary text of the questions and their authors and date.
