

Issue 2/2022

Green Deal: 110 million EUR for LIFE projects

In February 2022, the Commission has announced an investment of over 110 million into LIFE programme integrated projects for environmental and climate protection, selected after a call for proposals covering the year 2020. The funding will support new major environmental and climate projects in 11 EU countries - Cyprus, Czechia, Denmark, Estonia, Finland, France, Latvia, Lithuania, the Netherlands, Poland and Slovenia. The projects contribute to a green recovery from the COVID-19 pandemic and support the European Green Deal's objectives of making the EU climate neutral and zero-pollution by 2050. They are examples of actions to deliver key European Green Deal objectives under the EU Biodiversity Strategy for 2030 and the EU Circular Economy Action Plan.

EWA NEWS presents you the key elements of the projects as well as a link to the project descriptions.
