

## Issue 2/2022

### **Joint Declaration to Unleash the Potential of the Water-Energy Nexus in the Energy Efficiency Directive**

**Following activities by the MEP Water Group on the Energy Efficiency directive, the latest being the February 2022 Online Webinar "How to make the energy efficiency directive water-smart?", the European Alliance to Save Energy and Water Europe have released a joint declaration to unleash the potential for the water-energy nexus in the energy efficiency directive with 11 recommendations.**

The nexus holds the potential to generate large-scale energy and water savings across sectors and reduce greenhouse gas (GHG) emissions and it is time for policy-makers to accelerate the European efforts towards a clean energy transition and a Water-Smart Society.

EWA NEWS provides you the key aspects of the declaration as well as a link to the full text.
