

Issue 4/2022

Revision of the Industrial Emissions Directive (IED)

Progress report

The legislative proposal for a revision of the Industrial Emissions Directive was adopted by the European Commission in April 2022 (see previous EWA NEWS report), and is now subject to scrutiny by the two legislators (European Parliament and Council).

Within the European Parliament, Mr Radan Kadev has been appointed rapporteur for the legislative proposal. The procedure is currently, during the first reading, awaiting decision by the Environment Committee of the Parliament.
