Water-related questions from the European Parliament in full:

Question on waste water reuse

Parliamentary questions are questions addressed by Members of the European Parliament (MEPs) to other European Union institutions and bodies. They are a direct form of parliamentary scrutiny of the other EU institutions.

Parliamentary questions, and the subsequent replies of the other EU institutions, are also a rich source of information for citizens.

EWA NEWS provides you from time to time examples for such questions and the related answers in full text. To recall, every edition of EWA NEWS provides you the title of all water-related questions plus links on how to read the full text of the questions and the answer once supplies.
