

## **Sustainable development in the European Union**

### **Monitoring report by Eurostat on progress towards the SDGs in an EU context – 2023 edition**

Eurostat, the statistical office of the European Union, has published the 2023 edition of its 7th regular report on progress towards the Sustainable Development Goals in an EU context.

Sustainable development is firmly anchored in the European Treaties and has been at the heart of European policy for a long time. The 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs), adopted by the UN General Assembly in September 2015, have given a new impetus to global efforts for achieving sustainable development. The EU is fully committed to playing an active role in helping to maximise progress towards the Sustainable Development Goals. This publication is the seventh of Eurostat's regular reports monitoring progress towards the SDGs in an EU context.

EWA NEWS provides you the key findings of the report as well as a link to the full text of the Eurostat report.
