## Issue 2/2023

### European Parliament questions

**22 water-related questions from Parliamentarians, from water scarcity to pollution of drinking water supplies by the construction of a sewer, and from privatisation of water supply systems to the use of toxic cyanides in mining processes.**

EWA NEWS provides you in each edition the headline text of the questions as well as a link to the full text of the question and – where already available – the answers to the Parliamentarians.
