Eurobarometer Environment 2024

May 2024 saw publication of the latest Special Eurobarometer report "Attitudes of Europeans towards the environment"

More than three-quarters of Europeans (78%) agree that environmental issues have a direct effect on their daily life and their health. Around four in five respondents (84%) agree that EU environmental legislation is necessary for protecting the environment in their country.

EWA NEWS presents you

- the key findings including graphics,
- the perceptions on water-related issues, and
- links to the full text of the report and to country factsheets for all 27 EU Member States.
